Unit: piece

Weight incl. packaging: 0,10 kg

Weight excl. packaging: 0,08 kg

Highlights

Clip-on frame for frame F14 / R14; Set of 5 pieces

The vented soft foam cushion frame for the laservision laser safety goggle R14 (A14.AIRED.1000) provides a particularly high level of comfort and prevents fogging of the laser safety filters. Especially when wearing for a long time, this results in a comfortable fit without pressure points and a clear view. The cushion frame is simply clipped onto the existing frame.
